EDUCATION

CUNY Queens College **Queens, NY**
Bachelor of Science in Computer Science · GPA: 3.8 **Expected May 2027**

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL, Java, C++, HTML/CSS, Bash
Frameworks: React, Next.js, Node.js, Express, Flask, Vite, Tailwind CSS, pandas, Pydantic
AI & Cloud: Claude, OpenAI, Gemini, Azure OpenAI, OpenTelemetry, Azure Event Hubs, AWS, Cloudflare, Microsoft Fabric
Tools: Git/GitHub, GitHub Actions (CI), pytest, Sentry, PostHog, Jira, Power BI, Excel VBA, WCAG testing

EXPERIENCE

Puberry | *Education platform serving 1 million students* **New York, NY**
Software Engineering Intern **June 2026 – August 2026**

- Led **2 intern engineers** in the mobile-responsive redesign of the student, teacher, and parent portals, an 8-step sign-up and login flow, and daily check-ins; tested on 3 iOS screen sizes and shipped to production.
- Built the front end for Duels, a turn-based trivia game in **English, Spanish, and Greek**, shipped to all users.
- Fixed production bugs exposing raw translation keys; added shared input validation and focus-aware roster polling.

Augenta AI | *AI agent-memory platform startup* **New York, NY**
Forward Deployed Engineer **March 2026 – June 2026**

- Deployed Augenta's Azure-hosted agent-memory platform to production for **2 healthcare startup clients**, each live and HIPAA compliant **within 2 weeks**, porting it across **4 LLM providers** to fit each client's compliance needs.
- Built a harness-agnostic OpenTelemetry adapter that captures Claude Code, Codex, and Cursor sessions and streams them via Azure Event Hubs to the memory engine, with CI tests verifying recall across all 3.
- Contributed to cross-session context injection that **cut token usage 24%** and **raised recall 33%** in team benchmarks.
- Scaled the platform from single users to **multi-tenant organizations** by building REST membership endpoints and React/TypeScript admin views deployed on Cloudflare Pages.

Office of Student Financial Assistance, CUNY **Queens, NY**
Financial Aid Technical Assistant (Part-Time) **May 2021 – Present**

- Automated 5 financial aid workflows with Excel VBA, **cutting manual processing time 40%** for **15,000+** students.
- Ran QA and WCAG accessibility testing on student portals, documenting **50+ defects** for remediation.

PROJECTS

ARTIC | Python, OpenRouter, Azure AI Foundry, Microsoft Fabric, Pydantic **October 2026**
Microsoft LEAD ASPIRE Hackathon, Mastercard financial-inclusion challenge

- Built an AI decision-support tool modeling **$292** in 5-year value per unbanked customer across 96 candidate banks and 1,287 branches; prototyped in 8 hours and extended **11 days** at Mastercard's request.
- Owned the LLM decision layer that recommends evidence-backed, county-level outreach campaigns, with Pydantic-typed outputs, a deterministic fallback, a circuit breaker, and evaluation cases.
- Joined Mastercard customer discovery and translated feedback into requirements; merged **26 of the team's 143 PRs** into a codebase with 158 CI tests and pipelines over 7 federal data sources.

Iris | TypeScript, Gemini API, Cloudflare Workers, MediaPipe, ElevenLabs **October 2026**
HackKnight 2026: 2nd Place Overall and Most Popular Hack

- Built a hands-free Chrome extension in 48 hours with a team of 4: users browse by gaze and click with a double-blink.
- Architected the Cloudflare Worker backend proxying Gemini with auth and rate limiting, plus a masking pipeline that keeps camera data on device, redacts form fields, and matches page targets in **under 600 ms**.

Polly Debate AI | Python, React, Flask, WebRTC, OpenCV, DeepFace **October 2025**

- Co-built a debate coaching platform that scores a user's live speech and facial expression in real time.
- Owned the React/WebRTC front end for video capture and the Flask back end streaming frames through OpenCV and DeepFace at **30+ FPS** with Google Speech-to-Text.

LEADERSHIP

Queens College Computer Science Club **Queens, NY**
Treasurer and Event Coordinator **February 2024 – September 2025**

- Managed a **$15,000+** annual club budget and the **$8,000+** HackHarvard 2024 trip for 40+ students.
- Coordinated **10+** technical events with **200+** attendees and taught an HTML/CSS workshop to 30+ students.
